

# Shades of Green

## ENERGY

Use energy efficient lighting.  
First find out if you need help with  
upgrading lighting

(some buildings may already have efficient lighting)

by getting a free non-obligation  
energy assessment completed by

**Smart Lights**

**([www.smartlights.org](http://www.smartlights.org)).**

They will visit your office/shop for  
free

identifying ways you can  
save energy and money.

If you decide to go forward  
with a project, they can provide  
free start-to-finish:

technical assistance

instant rebates to help defray the  
cost of upgrading and/or replacing  
existing equipment.

Instant rebates typically range from  
50%-70% of total project costs.
