FORUM WORKSHEET – Building Marin’s Whole Community Approach to Disaster Response and Recovery

Once directed to by the moderator, please answer the questions as a group at your table. Please select one person to take notes and to be prepared to report out some of the key points of your table’s discussion.

1. What are some of the challenges we as a general community face in a disaster?

2. Now, specific to persons with access and functional needs (as described this morning by Mr. Ball), what are some of the additional challenges we face in the various components of disaster response and recovery?

3. What are some of the gaps you see in our county’s whole community disaster response and recovery system?

4. What are some of the things you see we are doing well as a county in our whole community disaster response and recovery system?

5. What things do you think we all should/could be doing to better develop our whole community disaster response and recovery system?
